

BOWEL SCREENING SAVES LIVES

Every month, thousands of people in the UK take part.

If you're aged 60–74, or 50–74 in Scotland, you'll automatically be sent a free NHS test kit in the post every 2 years.

The test looks for invisible early signs of bowel cancer, and it's designed for people who don't have symptoms.

When bowel cancer's detected at an earlier stage, there's a better chance of surviving it.

Ask your pharmacist if you have any questions, such as how to do the test.

**IT'S
EASIER
THAN YOU
THINK**
